

# SNAG APP

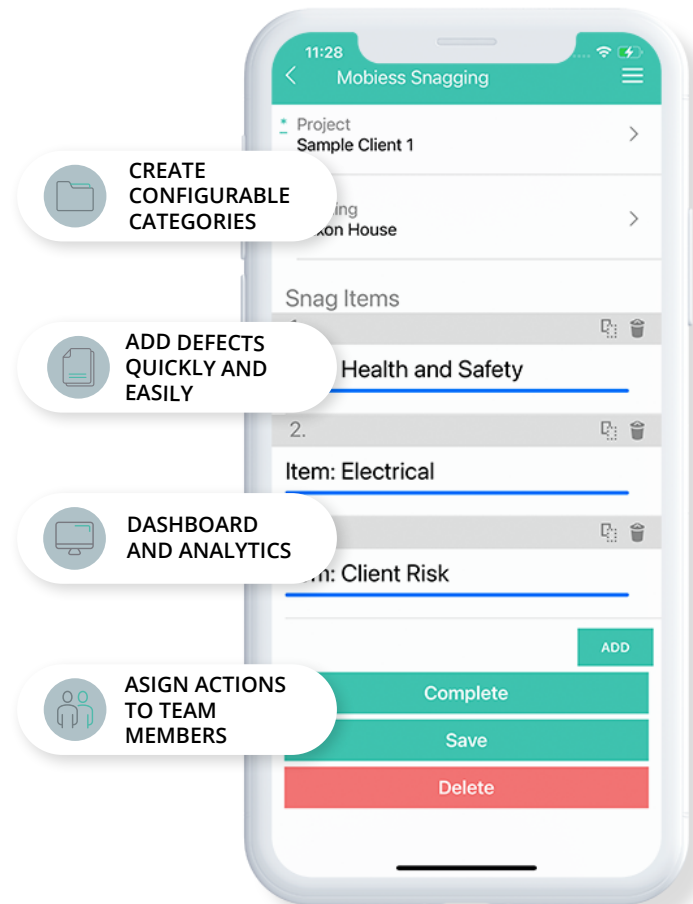

Multi-client and multi-site defect management app that allows maintenance, construction and quality control teams to manage snag lists with ease.

Simplify your site inspections and audits and track all your actions and defects in one easy to use **Snag App**. Assign and Manage the progress of your actions using photographs, annotations and risk scoring.

Logging defects could never be easier – upload multiple photos, add a description and assign to other users! Quickly create and assign corrective actions no matter where you are.

What can you use the app for:

- Snag Lists
- Maintenance Tasks
- Quality Checks
- Cleaning Issues

## GO PAPERLESS

Streamline your inspection process, save time, organise your data, and eliminate paperwork, all whilst reducing costs.

## OFFLINE DATA CAPTURE

Mobiess Insight utilises offline data collection and secure storage if no 3G/4G/Wi-Fi network are available. No connection? No problem!

## PHOTOGRAPHS AND SKETCHES

Photographic evidence and additional notes can be added. Markup and annotate multiple photos to highlight any issues captured during your inspections.

## LOGIC

Create lists that are more efficient and easier to complete by showing or hiding fields based on an answer.

## REPORTING AND ANALYTICS

Visit our web-based portal to view performance and trends in your real-time dashboards and automatically generated high-quality reports.

## MANAGE CORRECTIVE ACTIONS

Generate and proactively manage corrective actions. Each corrective action can be logged, scheduled, and managed locally on the device or in the web-portal.
